## Objective

I am applying for the position of LDBC Community manager. The LDBC project is of particular interest to me, since I have worked on creating an RDF benchmark [3] and I have done evaluations with several other benchmarks [2]. I have experienced the need for more unified standards in the field of RDF and Graph databases, where most solutions are very specific and datasets vary widely in their structure so a cross comparison is difficult. Realizing the seriousness of the issue I'd be happy to help others in the field and spread the word of a possible solution.

## Relevant work experience

Dec. 13–present	<b>Research Associate at Ontotext</b> Collaboration on NoSQL data bases used as RDF stores.
Oct. 13–present	<b>Software Engineer at ELCA, Bern</b> <i>ASTRA Verkehrs Management</i> – Road traffic management project for the Federal Roads Office. Responsibilities: developing new functionalities and bug fixing. Technologies: Java, GWTP, GXT, Hibernate, Spring, Maven etc.
Feb. 13–May 13	<b>Scientific Collaborator at eXascale Infolab</b> , led by Prof. Philippe Cudré-Mauroux, University of Fribourg, Switzerland <i>NoSQL RDF Benchmark</i> – Implementation of SPARQL with Apache Jena on top of Couchbase document database for running Berlin and DBpedia SPARQL Benchmarks on clusters of up to 16 nodes with large datasets.[2]
Jan. 11–May 12	<i>Project Bowlogna</i> – Transforming relational university data into RDF ontology and developing a Web visualization for interaction with it. Developing ontology generator based on the same data. Technologies: Jena, AllegroGraph, SPARQL, JavaScript, Ajax, jQuery, Cytoscape Web.[3, 4]
Nov. 12–Feb. 13	<b>Collaborator at DERI</b> , Galway, Ireland, supervised by Michael Hausenblas <i>Project Spitfire, LD4Sensors</i> – Application for enriching sensor metadata and sensor observations with Linked Data. Decoupling the underlying RDF data store from the LD annotations layer, so that data can be modified by other applications, updating the REST API provided by the application.
Feb. 09–Aug. 10 projects	<b>Junior Software Engineer at Musala Soft</b> , Sofia, Bulgaria <i>Barracuda for Mtel</i> – Integration project for substituting legacy billing and CRM systems. <i>Declaration Management System (DMS)</i> with IBM Netherlands – control and administration of movements of goods through Dutch Customs. <i>Content Delivery Platform</i> for Mobilkom Austria, application for mobile entertainment content, accessible through Web or WAP interface.
responsibilities	Refactoring and testing PL/SQL procedures that extract information relevant to billing cycles and different kinds of services and subscribers and provide this information to SAP accounting system. Code design, implementation and refactoring. Technologies: Java EE, JSF, EJB, Hibernate ORM, Oracle DB.

## IT Skills

software development	Java SE/EE, JSP, JSF, Servlets, Hibernate, JavaScript, JSON, Ajax, jQuery, Web Services, Oracle DB, SQL, PL/SQL, Apache Cassandra, Couchbase, MapReduce, RDF, Apache Jena, SPARQL, Linux, Git, SVN
certification	Sun Certified Programmer for the Java Platform, Standard Edition 6 Sun Certified Business Component Developer for the Java EE 5

## Education

Sep. 10–Oct. 12	<b>MSc in Computer Science</b> , Swiss Joint Master of Science in Computer Science, Universities of Fribourg, Bern and Neuchâtel, Switzerland
emphasis	Software Engineering – several courses and three projects based on GWT, Google maps API, SOAP, REST, MongoDB, Django; Agile Methodologies; Data Management, Ubiquitous computing; Distributed Systems; Concurrent programming.
Master's thesis description	<b>Unconventional Store Systems for RDF Data</b> Overview on main points of the Web, Semantic Web and Linked Data. Analysis and performance comparison of data store and entity registry systems – DNS, DOA, ENS, Chord DHT, CoralCDN, AllegroGraph, Apache Cassandra and MySQL in their ability to handle RDF entities, using own Java benchmarking suite.[1]
2005–2009	<b>BSc in Computer Science</b> , German Engineering Faculty of the Technical University of Sofia, Bulgaria; courses taught in German
Mar. 08–Aug. 08	<b>Erasmus exchange student</b> , Karlsruhe Institute of Technology – KIT, Germany

## Languages

Bulgarian	Mother tongue
English	Excellent C1 – Certificate in Advanced English – CAE; working in the USA and Ireland
German	Excellent C1 – DSH-Deutsche Sprachprüfung für den Hochschulzugang
French	Intermediate B1 – evening courses and courses at university, experience in CH
Russian	Basic A2 – second foreign language at secondary school

## Miscellaneous

leisure	Cycling; swimming; playing a folk instrument – gadulka; travelling; cooking;
soft skills	social networks, online hangouts for open source projects; a good team player
driving license	A+B since 2004
